Gem Identification Equipment

To complete the Gem Identification eLearning course, students must have access to the required equipment which is not included with the course materials. The estimated cost to purchase this equipment is \$2,500.00 excluding any applicable shipping, handling, and tax (subject to change). Students who do not have access to this equipment may choose to purchase the GIA Gem Identification Student Package at store.GIA.edu. This package does not include a binocular microscope. As an alternative, students can complete assignments in a fully equipped GIA Student Workroom.

Stone Set Shipments Outside the United States

Students who live outside the U.S. and will not be using a GIA Student Workroom to complete practical assignments must submit an \$800 refundable deposit at the time of registration. Upon return of all assignment and final exam stone sets in their original condition,

Students are responsible for all duties, taxes and fees assessed upon import and export of the stone sets to their country. These charges are determined by the country of import/export and vary greatly. They might range from no fee to up to \$2,500. More specific estimates for individual countries may be available based upon past shipments by contacting the stones request department at srequest@gia.edu.

GIA will pay for the initial outgoing shipping costs of all stone sets as well as the return shipping cost of practical assignments 11-36 and any remedial sets. Students are responsible for the return shipping costs of the first assignment set and each exam set required. If the student requires the same stone set to be reshipped to them again, they will be responsible for all shipping and handling charges, duties, taxes and fees.
